AC-20-6-Y

UNITED STATES CIVIL AIRCRAFT REGISTER

Volume I

July 1, 1975

DEPARTMENT OF TRANSPORTATION
FEDERAL AVIATION ADMINISTRATION
AERONAUTICAL CENTER

PREFACE

The United States Civil Aircraft Register is published semi-annually by the Flight Standards Technical Division, Aeronautical Center, Federal Aviation Administration, Department of Transportation.

The aircraft listed in this register represent all registered U.S. civil aircraft either for which a completed Aircraft Registration Eligibility, Identification and Activity Report, AC Form 8050-73, has been submitted by the owner and found acceptable in compliance with Section 47.44 of the Federal Aviation Regulations, or for which new registration has been effected during this period. The fact that an aircraft is not listed in this publication does not necessarily mean that the aircraft is not a registered U.S. civil aircraft. However, failure to submit an acceptable AC Form 8050-73 by April 1 of each year is a basis for revocation or suspension of the aircraft registration certificate and Agency action to revoke these certificates has either already been instituted or will be instituted in the near future. Any questions concerning the registration of a particular aircraft or more recent ownership information than is contained in this listing should be immediately referred to the FAA Aircraft Registry at the below-listed address.

FEDERAL AVIATION ADMINISTRATION
FAA Aircraft Registry
P.O. Box 25504
Oklahoma City, Oklahoma 73125

This Register is not a source for evidence of aircraft ownership as the Federal Aviation Administration does not determine rights of ownership as between private persons. The Certificate of Aircraft Registration is issued for registration purposes only and is not a certificate of title. Section 501(f) of the Federal Aviation Act of 1958 (49 U.S.C. 1401) provides:

> ". . . Registration shall not be evidence of ownership of aircraft in any proceeding in which such ownership by a particular person is, or may be, in issue."

Encumbrances and instruments affecting ownership of aircraft are received by the Federal Aviation Administration for recordation. Persons needing information regarding instruments affecting the aircraft identified in this Register should examine the documents recorded with the FAA Aircraft Registry. Such records are open for public inspection in the Aircraft Title Search Room, Aviation Records Building, Aeronautical Center, Oklahoma City, Oklahoma. Records may be examined in person or by an agent or attorney.

The United States registration marks ("N" numbers) not shown in this register are not necessarily available for assignment. Such registration marks may have been reserved under the provisions of Part 47 of the Federal Aviation Regulations.

Part 47 of the Federal Aviation Regulations prescribes the requirements for United States registration. Part 49 of the Federal Aviation Regulations prescribes the requirements for Recording of Aircraft Titles and Security Documents. Parts 47 and 49 may be obtained by ordering them from:

U. S. CIVIL AIRCRAFT REGISTER

In this Register, aircraft information appears in registration number sequence according to the first digit of the registration number.

Following are the titles of the columns found in this register.

REGISTRATION NUMBER:

In addition to the prefix "N" (denoting United States aircraft), the registration number of the aircraft will not exceed five symbols. These symbols may be all numbers such as N70000, N70001, etc.; one to four numbers and one suffix letter such as N7000A, N7000B, etc.; or one to three numbers and two suffix letters such as N700AA, N700AB, etc.

All letters of the alphabet except "I" and "O" are used as suffix letters.

MANUFACTURER'S SERIAL NUMBER:

Self explanatory.

AIRCRAFT MAKE:

The three symbols in this column of the register represent the aircraft manufacturer. To determine the manufacturer, see the codes printed in alpha-numeric sequence on the unnumbered pages immediately following page IV.

AIRCRAFT MODEL:

The four symbols in this column of the register represent the model and series of the aircraft. To determine the model and series, see the codes printed in alpha-numeric sequence on the pages following page IV.

YEAR MANUFACTURED:

Last two digits of year manufactured are shown if known.

TYPE REGISTRANT:

1 – Individual
2 – Partnership
3 – Corporation
4 – Co-owner
5 – Government

REGISTERED TO:

Registrant's name. To conserve space only one registrant per aircraft is shown.

STREET ADDRESS:

Self explanatory.

CITY OR TOWN:

Self explanatory

STATE OR COUNTRY:

Two letter state codes and three number foreign country codes are listed on page III and IV.

NOTE: An asterisk in front of the "CITY or TOWN" column indicates that mail sent to that address has been returned to the sender by the Post Office.

DBA = DOING BUSINESS AS
