500 ?	BS-11 (ARG AF)	

### MANUFACTURER'S NAMES

The 520 series was designed and originally manufactured by Aero Design & Engineering Company which became Aero Commander in 1950. In turn, Aero Commander became the Aero Commander division of Rockwell International in 1965.

### Credits

This list is the result of my own records over the years (mainly from Aviation Letter), but supplemented by Barry Collman's list from 2004, plus recently Ton van Soest has sent me his ABN files, to whom I give my grateful thanks.

### Amendments and corrections

As ever, there are a number of items that require confirmation, shown in yellow highlight.

Additionally, if you know fates and cancellation dates, especially for non-USA registered aircraft, please let me know!

If you can provide such confirmation or otherwise, or can provide any corrections and additions, please do not hesitate to contact me at
