Date: 17-MAR-2005  
Time: 1603 UTC  
Type: JUNIOR JK 05 /A

Fatalities: Fatalities: 1 / Occupants: 0  
Other fatalities: 0

Airplane  
damage: Substantial

Location: en-route between Kitchener/Waterloo and Port Huron, Ontario -  [Canada](#)

Phase: En route

**Narrative:**

The Sky Paths Inc. Junior JK 05/A advanced ultra-light aircraft (C-IDPG) was on a VFR flight from the Kitchener/Waterloo Regional Airport (CYKF) to Port Huron (St. Clair County) Airport, MI (U.S.A.) (KPHN). The aircraft departed at 1605Z en-route to Port Huron. The aircraft failed to arrive at destination. J.R.C.C. Trenton has issued a Missing Aircraft Notice (MANOT). At this time the aircraft has not been located. Treskin, Michel 2005/03/21 C-IDPG departed CYKF VFR March 17 @ 1605z enroute to KPHN. The aircraft failed to arrive at destination. Trenton RCC issued a Missing Aircraft Notice (MANOT). Radar data provided to Trenton. Air search conducted. Trenton RCC reported that the aircraft was located crashed in a field about 10 NM north of London at approximately 2135z, March 18th. Further information received from OPP and passed to TSB. Treskin, Michel 2005/03/21 Supplemental information from T.S.B. Initial Notification (#A05O0067): C-IDPG, a Pathmaker

Junior Advanced Ultralight, departed Kitchener Waterloo on a VFR flight to Port Huron, Michigan. Weather was favourable for the flight. The aircraft did not reach destination, was reported missing and a search was initiated. The aircraft was found on 18 March 2005 at approximately 1630 EST in a field approximately 10 NM north of London, Ontario. The pilot was fatally injured.

Date: 06-JAN-2006  
Time: 12:00  
Type: PPHU Ekolot JK-05 Junior  
Operator: G.G. Paul

Registration: ZU-DVX  
 C/n / msn: 05-04-10  
 Fatalities: Fatalities: 2 / Occupants: 2  
 Other fatalities: 0  
 Airplane damage: Written off (damaged beyond repair)  
 Location: Saldanha Bay, Western Cape  
 Phase: Initial climb  
 Nature: Private  
 Departure airport: FASD (Saldanha)  
 Destination airport: FASD (Saldanha)

**Narrative:**

The aircraft was observed having problems with the engine run-up. However the pilot then took-off and at a height of around 200ft turned down-wind and to the left of the runway centre-line, upon which it immediately lost height and dove into the ground and broke up. It would appear that the engine had stopped shortly after take off. It was noted that one propeller blade had broken off at the hub, while the other had remained intact. Subsequent investigation brought to light a dirty fuel filter, which was very awkward to access.
