RATO Rocket Assisted Take Off using  
wingtip mounted Turbomeca Marboré jet engine.

### **Credits**

This listing has been prepared over many years and from various public sources, including books, magazines and the ubiquitous internet.

Thanks also go to all AB-ix members who have contributed to this listing.

### **Amendments and additions**

I have not spent much time on this listing in the past few years, so inevitably there will be gaps and additional information.

Please e-mail me any further information to [les\\_hitchings@hotmail.com](mailto:les_hitchings@hotmail.com)
