SWEDISH AF OPERATIONS IN CONGO

F22 operated in Congo from 1961 in support of UN operations, eventually using 9 x J 29B and 2 x S 29C

7 x J 29B were blown up in Congo during 1963 after their SOC dates, 29364, 29365, 29374, 29393, 29440, 29445, 29475
4 remaining were returned to Sweden during 1963.

NOTES

A shortage of engines during the J 29F conversion programme meant that some had an interim conversion known as “J 29F bastard”.
This modification state only lasted around a month or so and I have not recorded these in the above.

A number of aircraft were shown as “For training purposes” or “For practice purposes”. I have recorded these above as GIA (Ground Instruction Airframe).

A number of aircraft are shown as “Rejected” (abandoned during repair or overhaul) or “Discarded” (at the end of their service life).
I show both these as “SOC” (Struck off charge).

CREDITS

My starting point for this list is the excellent Swedish Aviation Historical Forum., supported by my own researches regarding survivors, especially the Eurodemobbed website.

<https://forum.flyghistoria.org/viewforum.php?f=31&start=100>

Andy Marden and Stig Jarlevik have also provided help and support with more information.

FURTHER READING

The Nordic Airpower book #8 by Jan Jorgensen 2017 - “SAAB 29 Tunnan -The Ultimate Portfolio” is highly recommended, but I am yet to obtain my copy

ADDITIONS AND AMENDMENTS

These are always welcome by e-mail to me.
