OO-FCP Reserved for an S.200/201 Trainer/Pro on Feb-22-22

ALL 201s are Trainer Pro

Based on what could be found easily on the net between 1915 and 2235hrs, October 25th 2021. Fully updated and revised Apr'22 inc notes from Air Britain News April 2022. **With very special thanks to Luc Wittemans and Bob Ronge for valuable additional data.** E&OE excepted

NOTE: There is a publicity shot for Pull-Up Academy which appeared on October 15th and shows a Sonaca marked as 'CS-PFC'. As of October 2th, no trace has been found of this aircraft so it should be considered 'art', a supposition which has been supported by info that, as I believed, CGI was used.

/NG aircraft are New Generation, fully kitted for night-VFR flight and using Garmin GI 275. Digital engine monitoring is also fitted.
